

Alberto Zamberlan – January 2005

I received the first level degree in Telecommunication Engineering from the University of Trento, Italy, in 2004 with the thesis: “Classification of remote sensing images of different geographical areas using an adaptive and partially supervised approach”.

Actually I'm a student of the same University to receive the “Laurea Specialistica”(M.S.) degree. My current interests are relative to write documentation, give support and develop free software.

Computer Science Skills:

compilable languages: ANSI C, ANSI C++

markup languages: LaTeX, SGML

mathematical languages: MATLAB, SIMULINK

operating systems: DEBIAN GNU/LINUX

Publications and talks:

Linux Day 2003 : “Camere Digitali, chiavi usb e simili su GNU/LINUX”

“Panoramica e installazione di Knoppix“

<http://www.vicenza.linux.it/linuxday/2003/interventi.html>

Pluto Journal : “Speciale Linux Day 2003”

<http://www.pluto.it/journal/pj0401/veneto.html>

Documentation : “Eduknoppix: installare GNU/LINUX ed essere operativi in 30 minuti”

“ Fotocamere Digitali, chiavi USB e similisu GNU/LINUX”

<http://www.vicenza.linux.it/~cieffe>

Extras:

Member of ILS (Italian Linux Society)

Member of LugVI (<http://www.vicenza.linux.it>)

Participant to the knopILS project (<http://www.knopils.linux.it>)
